KENT COUNTY AGRICULTURAL SOCIETY
CONDITIONS FOR SUPPLY & MAINTENANCE OF ELECTRICITY

1. It is the Exhibitor's responsibility to ensure that all fittings are delivered, completed and collected at the close of the Show on Saturday 4 April 2020.
2. All Exhibitor's fittings and wiring must comply with the current I.E.E. Regulations, Local Authority conditions and Health & Safety Executive Directives.
3. Electrical work by persons other than the official Electrical Contractor is prohibited. No other person/electrical contractor may alter or interfere with the installation.
4. The prices on the electrical supply form include the hire of all wiring, fittings and electricity consumed. Any specific breakages or damage to the installation (including faults caused by Exhibitor's wiring or appliances) will be charged to the Exhibitor.
5. If lighting points or socket outlets are required in a specific position on the stand, a plan must be sent to KCAS by 20 March 2020. If no plan is provided, the engineer will use his discretion as to their position. Any fittings that have to be altered or moved will be at extra cost to the Exhibitor.
6. This form must be returned to KCAS by the closing date shown, together with full payment. Any orders received after the closing date will be subject to a surcharge of 25%.
7. Power will be available from 8:00am to 5:00pm on Saturday 4 April 2020.
8. No refunds will be made available for cancelled supplies.
9. The KCAS Electrical Contractor cannot be held responsible for failure to install an electricity supply, fittings, or other items ordered if the Stand area is inaccessible or work by other contractors has not been completed. Consequently, the Exhibitor will be liable for payment in full for such items installed, even if late.
10. All installations and connections will be at the discretion of the electrical contractor in charge.
11. It may be necessary to disrupt the supply at any time for maintenance or safety reasons. This includes adverse weather or similar conditions not directly under the Electrical Contractor's control.
12. As part of a temporary installation, residual current devices protect all circuits. These devices may trip occasionally due to the build-up of residual earth currents. Exhibitors are warned to take extra precautions to prevent loss of computer data etc.
13. Due to the design and layout of the installation, it may be necessary to position mains panels etc. onto Exhibitor's Stands. Any such positioning will be kept as discreet and as safely as possible.
14. Sharing of power between Exhibitors is strictly prohibited.
15. No claim for loss or expense (actual or expected) will be accepted as a result of the Electrical Contractor's failure to perform.
16. By completing an order form you are agreeing to our terms and conditions.

Failure to comply with these conditions may result in electricity supply being withheld or disconnected. Please note that these terms and conditions are subject to change.

NO PAYMENT, NO POWER
